Proof of achievement

Sustainability report NSB 2015

Eress helps Train Operators: NSB

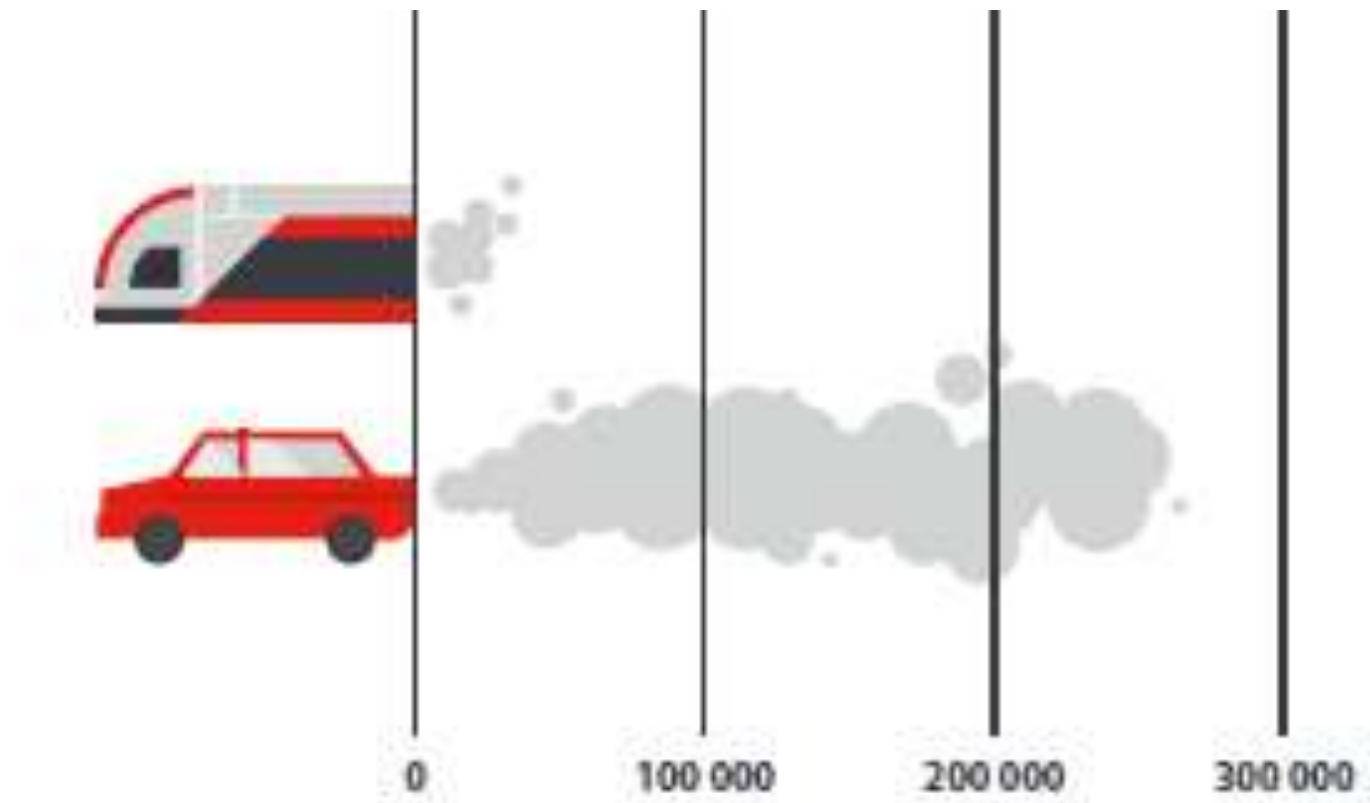

- **100%** energy to electrical trains comes from renewable energy (hydropower)
- **20%** energy consumption is covered by regenerated energy from breaking

Environment achievement

- **255 040 tonnes CO₂** saved in 2015

Financial achievement

- **EUR 130 381 756** operating profit in 2015

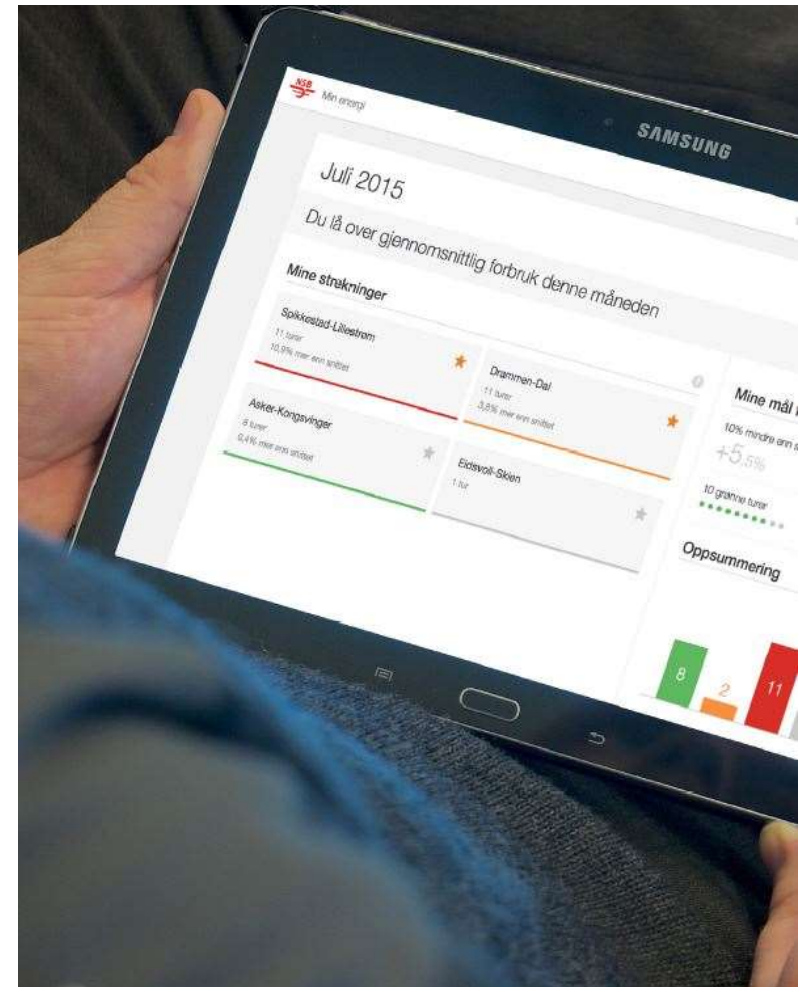

Energy tool

My Energy

application for drivers

- ✓ The application is available to all train drivers
- ✓ The driver can follow up on his own energy consumption
- ✓ The aim is to save 5%

Environmental calculator

- ✓ Shows how the use of public transport contributes to reducing greenhouse gas emissions
- ✓ It calculates and compares energy consumption and greenhouse emissions from airplanes, cars and buses

What does the railway sector need to meet future expectations?

What makes railway successful,
and what about CAP 21?

How to proceed - Cooperation!

What are my expectations
for this Forum?

Thank you!
