

Eress New Partnership Model Launch 2017

Paris, May 31, 2017

New partnership models in Eress

From all-in-one to modular Erex

Why?

- Increases flexibility for new interested countries to join Eress
- New partners can choose between 1 or 2 modules (limited or full partnership) to become partners
- They can get a “plugin” solution and start using Erex from day 1
- Avoids risk and costs of “reinventing the wheel”
- Economic, clear and predictable costs for partners
- Unique know-how on energy settlement at Eress and its partners
- Standard international solution according to the latest EU regulation
- Promotion of energy collaboration among railways in Europe

New partnership agreement

What does it mean for new partners?

Rights & obligations

New partners will :

- Get a seat with voting right in the Partner Meeting
- Steering Group members will in the future be assigned by the Partner Meeting
- Full partners will have full voting rights, limited partners a limited voting right
- Contribute to Eress partnership
- Influence Erex IT development
- Share IT costs according to the use of Erex system

Ready today for the railways of tomorrow
